ACCOUNTING CONCENTRATION

Overview of Accounting
Accounting is the study of how a business tracks income, expenses, assets, and liabilities over time, while adhering to reporting standards. Aside from preparing financial statements and recording business transactions, accountants engage in comparing budgeted costs to actual costs incurred. They also compute efficiency gains from new technologies, participate in strategies for mergers and acquisitions, develop and use information systems to track financial performance, and implement tax strategy.

Sample Job Functions and Descriptions for Accounting Professionals
- **Public Accountants** perform a broad range of accounting, auditing, tax and consulting activities for their clients who may be corporations, governments, nonprofit organizations or individuals. Public accountants, many of whom are Certified Public Accountants (CPAs), generally have their own businesses or work for public accounting firms.
- **Management Accountants** also called industrial, corporate or private accountants, are responsible for analyzing historical financial data of the company for which they work. They produce budgets and estimates of future revenues and expenses, information that helps management make important business decisions.
- **Internal Auditors** verify the accuracy of their organization’s records and check for mismanagement, waste or fraud.

Government Accountants and Auditors examine the records of government agencies and audit private businesses and individuals whose activities are subject to government regulations or taxation.

Many recent Cal Poly Accounting graduates start at large public accounting firms such as Deloitte, Ernst & Young, KPMG, or PriceWaterhouseCoopers. From there, many move on to careers with an Accounting focus in business or government.

Skills and Abilities
Ability to prepare statistical and written report, organizational skills, and attention to detail. Approaches work in a meticulous, thorough, and detailed manner. Deadline-oriented – ability to meet deadlines and juggle multiple priorities; data entry management, time management and people skills.
