GPA Calculator

Step 1: Log on to your Cal Poly Portal. Select the “Academics” tab, and then click on the link “Poly Profile.”

Step 2: Once you are on your Poly Profile Scroll Down Until you see this category of information. Click on “GPA Calculator.”

Step 3: Enter the current and future courses that you would like to calculate into the “Course Title” column (include # of units). You can develop both “high” and “low” potential GPA ranges based on combination of grades you expect to receive. If you are retaking a class for grade forgiveness, follow the directions for how to calculate your GPA with repeat units.
